

Trainee Occupational Health Physician

Hobson Health provides occupational health services to a huge range of private and public sector clients across the UK. We are a successful, growing family-owned company and pride ourselves on the quality of our provision and our excellent customer service.

We are currently offering a progressive career opportunity for a trainee occupational health physician looking to make a difference within their next career move.

We wish to recruit a trainee occupational health physician to become part of our team based in Stoke-on-Trent. The post is approved by the GMC for specialist training in occupational medicine however, we are also willing to consider any physicians wanting to train outside the GMC approved training programme.

Hobson Health offers exciting and varied experience within different workplaces with wide-ranging exposures and hazards. We are proud of the excellent opportunities for learning we can provide to trainees via our established team of sector-leading consultant occupational physicians.

The post can be based in the East or West Midlands but you will be required to attend clinics in Staffordshire and Derbyshire. You will need to have completed ST2 in General Medicine, Surgery or Psychiatry, Part 1 in Public Health, ST3 in General Practice or the equivalent e.g. have completed General Practice Vocational training.

We offer a competitive salary as well as fully funded indemnity, Manchester MSc course, subscription fees and a company pension scheme.

Hobson Health is committed to equality, diversity and inclusion and welcome applications from all sections of the community.
